uniting labor and the expenditure of large sums of money.

Dr. French recently reduced the insurance on his furnishings from \$50,000 to \$15,000, thinking that he would never suffer a severe loss by fire. The first intimation of fire that he had, was when aroused by the heat and smoke in his from. He was occupying the second floor front room at the time, and his first thought was that unless he succeeded in arousing the two maid servants they would perish. He broke in the door of their room, and after being severely cut and bruised, succeeded in lowering them to the ground. He considers his oscape remarkable, and says that had his wife and children been in the house at the time, it would have been impossible to save them.

The body was taken to Annapolis, where

There are two engine houses within an eighth of a mile of Welling Place, yet Dr. French says they did not arrive until three-quarters of an hour after the first alarm had been turned in. Dr. French says that after calling loudly for help, he hurried to the Victoria flats, on Four-teenth street, but the Janitor of the building refused to turn in an alarm from that box, saying that as long as his place was not on fire he did not propose to disturb his tenants. It will be some days before the exact loss will be known. In the meantime, Dr. French has temporarily given up his New York trip.

Sampson to Be Placed Ahead of

President McKinley will at an early day send a recommendation to Congress to create the grade of Vice Admiral in the Navy, and to provide for two offices of this rank who shall have equal authority. If the bill is passed, he will name Rear Admirals Schley and Sampson for the positions. It is likely that Sampson will be named ahead of Schley, on the grounds that while he was not in the battle of Santiago he was commander-in-chief of the feet. The Vice Admiral given to Schley will be intended as the reward for his gallantry in winning the battle. Mattingly, in the case veillance a number of tellers, cashlers, and of Killman against Pirtle. The matter has assistant treasurers in the Treasury and been called to the attention of the Supreme Court of the District on the petition of the defendant, for a writ of certiorari to issue against the justice of the peace, requiring him to certify all the pa-pers in the case to the higher court. In the original proceedings William R. Killman brought suit against Charles H. Pirtle to recover \$100. When the matter was called for trial the defendant demanded that the matter should be investigated and passed upon by a jury. This privelege would be accorded the defendant, he was informed, upon his making a deposit of \$20 to defray the expense of a jury trial. This he refused to do and judgement was entered against him for the amount de-manded. The petitioner for certiorari is represented by W. C. Prentiss and F. C. Bright.

A Bewildering Success!

Not bewildering to THE PEOPLE. On the contrary, 'tis their chief delight to step into ADLER'S when on a shopping tour. It's the OTHER FELLOW who has similar wares to sell that's bewildered. He cannot understand the why and the wherefore of the remarkably low praces for fashionable and reliable merchandise which prevail at Adler's. The explanation is just as simple as "rolling off a log." Adler manufactures his own goods and sells them at EXACTLY 10 PER CENT ABOVE THE ACTUAL COST OF MANUFACTURE, which fact alone puts him outside the pale of competition, and hence his bewildering success.

If called upon to plead to an indictment for selling Suits of Clothes and Overcoats worth \$15 for \$10, the plea would be GUILTY. for that's just what's being done in this

establishment every day. The advance in prices has not affected us because we were prepared and do not propose to take advan-tage of the rise.
